

Small, elegant and powerful
Text-to-Speech device

Lightwriter® SL40 text-to-speech device and more

The Lightwriter® SL40, manufactured by Tobii Churchill Ltd, is a small, elegant, and powerful communication device for those needing voice output.

Text-to-speech and more

The SL40 quickly and clearly converts text to high quality Acapela speech, sends and receives text messages (SMS), stores notes and contacts, acts as a remote control and more, all in a lightweight and durable device.

Forward facing display

The high-resolution, large print, forward facing display allows listeners to read messages from the individual typing. The readable display allows communication in noisy environments and when silence is important. Situations where this might be necessary include libraries, schools and private conversations.

Word prediction for faster speech

Word prediction makes communication more efficient. The Lightwriter® SL40 acquires new

Small, elegant, and powerful text-to-speech device for those needing voice output, text messaging and environmental control.

words for the word prediction based on the user's own vocabulary. The predicted words appear in the four tabs at the bottom of the Lightwriter® screen.

Word prediction significantly reduces the number of keystrokes required and benefits most people using the device. This includes those who type slowly, people using head pointers, poor spellers, and people with word completion difficulties.

Acapela voices

The Lightwriter® SL40, with its clear and easy to understand Acapela voices, makes robotic sounding voices a thing of the past. Whether having a normal conversation or giving a speech, the high quality voice lets everyone understand exactly what is said.

Built in environmental control

The built in infrared of the Lightwriter® SL40 can be programmed to control appliances, toys and some home control systems.

Easy to set up and use

The setup wizard runs the first time the Lightwriter® SL40 is turned on, and gets the user started quickly and easily. As needs change, settings and preferences can be altered.

Accessible keyboard

The keyboard on the SL40 has adaptable keyboard sensitivity. It is equipped with three changeable key guards of different depths, which can increase ease of use and typing accuracy. The layout can easily be changed to different QWERTY and ABC formats.

Durable design and long battery life

The Lightwriter® SL40 is sleek, lightweight, and durable. It features an ergonomic design, easy to clean keyboard, scratch resistant screen cover and an impact resistant case allowing it to handle everyday wear and tear with ease.

Rechargeable nickel metal hybrid long life batteries provide the power for all day use. The automatic suspend state of the Lightwriter® saves on the battery charge. The time the SL40 stays on before suspending is adjustable. For those who travel, an optional car charger is available.
