

**Accurate and Accelerated
Text-based communication**

Accurate and accelerated text-based input

Freedom of expression

For communication to be effective, AAC devices need to be quick, effortless and natural to the user. Many literate users prefer to type, as they have the freedom to express themselves in their own way, without having to learn new encoding systems. However, natural communication requires a quick output rate, even if the user's input method might be slow.

Sono Scribe enhances typing speeds through the use of word and next word prediction as well as smart phrasing. The prediction tool is highly efficient thanks to the way it quickly categorizes and sorts the frequency of items.

An extensive library of over 1,300 words and phrases offers both frequency-based core vocabulary and the most often used phrases in U.S. English, helping users avoid motor fatigue and speeding up communication.

Using all the freedom of expression of text-based communication, and accelerating input speed with sophisticated functions.

Without any programming skills AAC users can personalize their communication tool and adapt it to their own writing and talking style.

Quick, customizable and effective

- Access to 1,300 of the most frequently used words in spoken U.S. English.
- Alphabetized, color-coded vocabulary and visual anchors for ease in locating vocabulary.
- Access via topical/grammatical word-prediction dictionaries to over 18,000 high frequency words, plus standard dictionaries of 5,000 to 50,000 words using on-screen keyboards.
- "Next Word" prediction based on each communicator's individual writing style.
- "Smart" phrase prediction for faster communication with access to over 600 ready-made, user customizable phrases derived from usage research.
- Quick access to verb tenses, common word endings, and more.
- Ability for users to add family and friends' names, favorite places, personal phrases, and more.
- Spelling via user-switchable QWERTY, Alphabetical, and Frequency of Use keyboards.
- Designed for all access methods, including eye gaze.

Communication in all its forms

"Communication" means much more than just face-to-face communication. Tobii Sono Scribe maximizes the functionality of Tobii Communicator Premium and provides:

- Keyboard and mouse emulation access to all computer software and functions like, instant messaging, the Internet and e-mail.

- Ability to compose e-mail using the communication pages or a keyboard and to have e-mail messages read back.
- On-screen keyboards for access to common computer software applications.
- Use of all functions without ever having to leave Sono Scribe.

Environmental control

Control common household appliances and lighting using infrared controls available on the Mercury and Tobii lines of equipment or through peripheral infrared ECUs.

System requirements

Sono Scribe requires Tobii Communicator Version 4.3 Premium or higher.

Some of the functions require a cell phone subscription and an Internet connection.
