

Easy for Educators

Create paper-based communication pages
and educational material

Create paper based communication and educational materials

The full spectrum of communication

SymbolMate is ideal for creating paper-based communication pages and educational material with symbols, text or photos.

SymbolMate allows for the creation of communication pages for AAC users and their static devices with pre-designed templates. Along with supporting communication needs, SymbolMate is the perfect tool for building visual schedules and social skill activities for children with autism. It also supports literacy development by allowing the educator to create books and symbol-based literacy activities for emergent readers.

Grows with the student

SymbolMate is a software tool that will set any student up for success. When your student is ready they can advance to Tobii Communicator and continue to use the same AAC pages and symbols in a dynamic display environment.

Making it easy for educators to create paper-based symbol communication and educational materials. Ships with more than 15,000 symbols.

Symbols developed for communication SymbolStix® is the most comprehensive and consistent symbol library available; including more than 15,000 professionally line drawn symbols. SymbolStix® is developed by News-2-You Inc., a leading distributor of symbol-based educational newspapers. The symbol library is updated regularly to keep up with current events, topics or news-worthy people, helping to engage users in daily news and extending their vocabulary and conversation.

SymbolMate and SymbolStix® also include symbols representing your local vocabulary including five different languages supported and more to come.

With SymbolMate you can easily add more pictures or graphics by importing entire folders from your computer to further personalize the communication.

SymbolMate Features

SymbolMate is packed with features that make it easy to use, some of them are:
